

PARENT – TEACHER COMMUNICATION

To facilitate communication between home and school, each teacher now has an e-mail account which is listed below. If you have any question or concern, you now have the option of using e-mail. However, phone calls to school or notes are still encouraged as well.

If you use e-mail, please be advised that teachers **WILL NOT** be allowed to access their e-mail during class time. Therefore they would have to respond after school or even possibly the next day. If you definitely need to have a response on a given day, then send a note or call the school office (989-1373) and Mrs. Dhein will forward that message to the teacher. Please do not send an e-mail if a change in transportation after school is required since the school staff will probably not have time to read it during the day. In cases like this, teachers will still need handwritten notes or you will need to call the school office.
